

American Recovery and Reinvestment Act

Opportunities to Retain and
Create Jobs

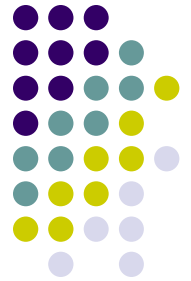

April 2009

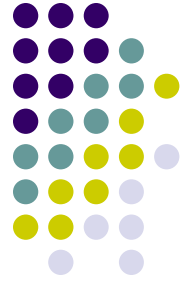

ARRA Background

- The American Recovery and Reinvestment Act (ARRA) provides significant resources directly to states for job retention and creation.
- It also includes opportunities for the private sector to compete for grants to support job retention and creation.

Doyle Administration Efforts

- The Doyle Administration is actively reviewing the ARRA for all opportunities to retain and create jobs in Wisconsin.
- Today, we will focus on the workforce opportunities related to: energy and green jobs; road and construction projects; weatherization; and water infrastructure

Energy and Green Jobs

- State Energy Program - \$55.5 Million WI
 - Currently a program of less than \$1 million/year
 - The program could support activities such as:
 - Attracting green industry jobs to WI – wind towers and components; solar panels; etc.
 - Industrial energy conservation and retrofits
 - Large scale clean fuel and energy production
 - Multi-family housing energy and weatherization

Energy and Green Jobs

- Energy Efficiency and Conservation Block Grant - \$37 million (est.) – WI
 - \$25.4 million directly to large urban areas and counties
 - \$7 million to small cities and counties
 - \$4.7 million to the state
 - \$1.3 million to tribes
 - Purpose – Efficiency and conservation efforts at the local level

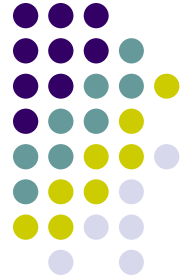

Energy and Green Jobs

- Advanced Battery Manufacturing Grants - \$2 billion – Private Sector competitive program
- Smart Grid - \$4.5 billion – Private Sector competitive program
- Applied Research, Development, Demonstration and Deployment/Energy Efficiency and Renewable Energy Research - \$2.5 billion competitive program

Road and Construction Projects

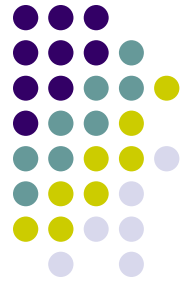

- The combined ARRA and Governor's budget provide an additional \$569 million in additional support over the next two years to major highway programs
- The Building Commission's capital budget provides for \$1.4 billion worth of projects over the next two years – an increase of over 14%.

Weatherization

- ARRA - \$141.5 million – Currently the state spends \$74 million/year in state, public benefits and federal funding.

Clean Water

- Clean Water State Revolving Loan Fund - \$105 million
 - Loans are provided to municipalities for wastewater construction projects
- Drinking Water State Revolving Loan Fund – \$37 million
 - Loans are provided to municipalities for drinking water construction projects
